

# Academic Integrity Quiz (AIQ)

A copy of the **Academic Integrity Quiz, (AIQ)**, has been added to the **Census Activity Module** in each Canvas course as a means for instructors to assign an assignment to aid in documenting all students' attendance during the College's Census period at the start of each semester.

The Academic Integrity Quiz is the GTCC standard census assignment. All you need to do is **ADD YOUR CENSUS DATE**. Be sure to Delete any prior AIQ's or Verify Your Enrollment quizzes that may have copied over from a previous semester.

## Edit the Due Date

Once you have signed into your course, Click on the **Modules** tab, (left side of the screen), and then,

Navigate to the **Census Activity** module.

The **Academic Integrity Quiz** is the only content item in this module. Click on the **Academic Integrity Quiz**.

**Assign the Due Date.** This date will appear on the students To Do list as well as the calendar.

**Assign the Available from Date**– This is the date when the assignment first appears for the student. You can leave this date blank since the first day of the course is the date available for students to access the content.

**Assign the Until Date**- This is the date when the assignment is closed and is no longer accessible to the student. The time setting can be used in addition to the date setting for an added measure of compliance. Set the time to 11:59 PM on the last day of the course Census. It is important to use this feature to prevent students from accessing the AIQ after the course Census date.

**The AIQ's due date should never be set for a date that is later than the Census date for the course.**

**Click the Save Button** -this action will save all changes.

For additional information about Setting Dates in the course visit the Canvas Community Page:
